PROFESSIONAL OVERVIEW

Experienced Software Professional with over 11+ years of expertise in building secure, scalable, and high-performance software systems. Strong background in full-stack development, system design, cloud solutions (Azure), microservices, and micro-frontend. Good at aligning technical plans with business needs, guiding teams, and improving software development. Skilled in modern architecture and agile methods to deliver reliable and future-ready solutions.

WORK EXPERIENCE

Technical Architect

Carl Zeiss India, Bengaluru | 2024 - Present

- Create scalable and maintainable architecture for complex medical product and workflow applications.
- Lead reviews to ensure code quality and adherence to best practices.
- Guide junior engineers in design and development techniques.
- Organize sessions with stakeholders to gather input on architecture and design.
- Document architecture frameworks and system integrations clearly.
- Ensure software security measures are in place and effective.
- Collaborate with product managers, developers, and other stakeholders to align architecture with business goals.
- Ensure that architectural designs comply with relevant industry standards and regulatory requirements.
- Develop prototypes to validate architectural concepts and gather feedback before full-scale implementation.

Tech Lead

Carl Zeiss India, Bengaluru | 2022- 2024

- Designed and implemented scalable, maintainable architecture solutions for complex medical applications in the eye-care domain.
- Led a cross-functional development team and conducted code reviews to ensure adherence to industry standards and best practices.
- Mentored junior engineers on software design principles, development practices, and architectural patterns.
- Delivered medical-grade software products aligned with regulatory and quality requirements.
- Collaborated closely with stakeholders to gather, refine, and align requirements with technical implementation.
- Utilized technologies including C#, SQLite, Angular, SignalR, Server-Sent Events (SSE), and others for full-stack development.

EDUCATION

MCA - 2014

GAC, Bharathiar University,
Coimbatore

BCA - 2011

Arignar Anna College,
Krishnagiri

SKILLS

- **Architecture:** Microservices, Event-driven, REST, SOAP, gRPC, Micro-frontend
- **Cloud:** Azure
- **Languages:** C#, JS, TS, SQL.
- **Frameworks:** .NET, Angular
- **Tools:** Docker, Kubernetes, GitHub Copilot, RAG, Agentic AI, MCP
- **Practices:** Agile, CI/CD, DevOps, Design Patterns, SOLID, KISS, DRY, YAGNI, SAFe, MDR, DICOM, FHIR, HL7

ACHIEVEMENTS

3 Spot Awards &

2 Peer Awards

Carl Zeiss India
2018- 2026

Design Engineer

Carl Zeiss India, Bengaluru | 2018- 2022

- Designed, developed, and tested scalable software solutions for medical devices.
- Built an online device management system to monitor and update Zeiss eye-care devices remotely.
- Collaborated with cross-functional teams to ensure performance, reliability, and compliance.
- Optimized database queries to improve system responsiveness and performance.
- Contributed to regular software updates, bug fixes, and feature enhancements.

Senior Software Engineer

Mindtek (India) limited, Bengaluru | 2017- 2018

- Developed scalable and customized software solutions to meet diverse client requirements.
- Integrated new features into existing applications to improve usability and performance.
- Built a rapid data collection tool to gather expert inputs for machine learning datasets.
- Optimized application performance by analyzing and refactoring critical components.

Software Engineer

Cogwave Technology, Bengaluru | 2016- 2017

- Hybrid mobiles application for restaurant KOT using Angular, Cordova, and Ionic framework.
- Hospital Information System (HIS) using Web API and Angular.

Software Developer

Sivasakthi Software Service Pvt Ltd, Coimbatore | 2014- 2016

- Developed and maintained Windows-based applications for retail and accounts management.
- Gained hands-on experience in web development and learned MVC architecture.
- Worked with technologies including VB.NET, C#, HTML, JavaScript, and DBMS.
- Built modules for accounting, retail operations, and inventory tracking.
- Collaborated directly with clients to gather requirements and deliver tailored solutions.

PROFESSIONAL DEVELOPMENT

Certified SAFe® 6 Architect
